Subject: readionculide dating of sediments
[feng.pdf](#)

Liz,

As I was listening to you talking about procedures for dating sediment layers,
I thought that one of Montclair State's faculty might be able to contribute in this area.
Dr. Huan Feng has done a lot of work in the area of radionuclides for sediment dating in coastal areas, including NYNJ Harbor. In fact, his papers are referenced in one of the project work plans. I have attached his one-page CV for review. Let me know if you'd like him to get involved.

Regards,
Kirk Barrett
